ne single ten de cane of comotor; yet, if we except the first of these, The Burning of Rome. hey provide occupation tess concen al As every thing connected with great o men than to women, and, as far as fires has a peculiar interist at the he last, if not the last but one also present time, we reproduce the nara is concerned, it is probable that for tive of the historian Tacitus concernone man who has been trained to it, ing the conflagration which occurred there have been a bundred women. at Rome, A. D 64: "There followed a Of course, we are speaking of creat dreadful disaste, ; whether fortuitou-ltion and organization, not of mere exor by the wicked contrivance of the curion. We should be quite preparprince (Nero), is not determined, tot ed to hear that women are retter copy both are asserted by historians - hat ests than men, thanks to hat imitative of all the calamities which ever befelfaculty with they possess in a far this city from the rage of fire, this greater degree; and the same gitt enwas the most terrible and severe. It This Establishment is continually adding broke out in that part of the Circuables them to say the least to hold their own with men in the highest dewhich is contiguous to Mounts Palatine partment of singing But where are their operas? where their oratorios? in which were kept such goods as minwhere their somains? Where are ister aliment to fire, the moment beir churches, their aftar pieces-for commenced it acquired strength, and which, one would have thought, their being accelerated by the wind, it spread superior piety and devotion would at once through the whole extent of have sufficiently inspired them-their the Circus; for neit! er were the housnever dying frescors and convasses, es secured by enclosures nor the temtheir distoric portraits, their tender ples environed with walls; but crucifixious; their lives of saints, their the flame, spreading every way imdeaths of marryrs; their splended butpr uously, invaded first the lower re tle-pieces? If it be objected for in ions of the city, then mounted to the stance, that they never see battles, higher; then, again ravaging the low in other did the men who have painted er, it baffled every effort to extinguish Orders of Private Families. it by the rapidity of its destructive them the best. It is not impossible that, what men and women both saw course, and from the liability of the equally clearly, they would paint city to conflagration in consequence of equally well. It is what neither see the narrow and intricate alleys, and the that women cannot paint, or, at any regularity of "the streets in ancient Rome. Add to this the wailings of the terrified women, the infirm condition of the aged, and the helplessness of childhood such as strove to provide for themselves, and those who abored to assist others; these dragging the teeble, those waiting for them; some hurrying others lingering-altogether created a scene, of univer-al confus on and embarrassment and, while they looked back upon the danger in their rear, they often found themselves beset before and on their sides; or, it women cut to e least and the poorest they had escaped into the quarter; figure, indeed, hardly any figure at a l adjoining, these, too, were already seized by the devouring flames; even the parts which they believed remote and exempt were found to be in the same distress. At last, not knowing what to shon or where to seek sancta

rate, have not pain ed and that men have. This is the very point. Imagmation has to do with things unseen by the naked eye It is another sort of vision that has to see them. In an age like the present, where painting concerns itself with very small matters and rarely-never suggessfully-with in tiers not open to every body's inspection, women do compete, and in two or three instances very creditably But where the highest intellectual facas compared with men; and, though every qualification t at occurs to us has been fully made in the above body of fact and argument, we scarcely think that it is op a to any one to dony that its central preposition has been ary, they crowded the streets and lay established. For it amounts to this: along open fleids Some, from the that in sempture, architecture, and loss of their whole substace, even the music, wemen lave done absolutely means of their daily sustenance; others nothing; and, in painting, have done from affection for their relatives. something but not very much, and whom they had not been able to snatch that only in an age in which the very. from the flames-suffered themselves his hest achievements as painters are portunity for escape. Neither dired second race, and the ordinary schievments beneath contempt. any mad attempt to check the fire, so Tell Your Wife. who f rbade to extinguish it, and be-
